Our purpose is to contribute to the wellbeing and happiness of people through design and the relationship we establish with the objects that surround us in our daily lives. We believe in honest and accessible design. Nuestra razón de ser es contribuir al bienestar y la felicidad de las personas a través del diseño y la relación que establecemos con los objetos que nos acompañan en nuestro día a día. Creemos en un diseño honesto, accesible y cercano.

DESIGN FOR  
EVERYONE

BRAND  
WITH SOUL

Our sustainability journey focuses on minimizing our environmental footprint and maximizing our positive impact on society.

Nuestro camino hacia la sostenibilidad se centra en reducir nuestro impacto negativo en el planeta y maximizar nuestro impacto social positivo.

SUSTAINABILITY

TURN OFF  
THE LIGHT

Our impact report  
Nuestro impacto

The expertise and knowledge of our professionals are dedicated to bringing your ideas to life, creating unique and functional spaces.

La experiencia y el conocimiento de nuestros profesionales se ponen al servicio de tus ideas para crear espacios únicos y funcionales.

## SERVICES

## YOUR IDEA, OUR EXPERTISE

Lighting & Fan projects / Proyectos de iluminación y ventilación  
Control and connectivity / Control y conectividad  
Customization and bespoke products / Personalización y productos a medida

Our commitment to quality is at the heart of everything we design. We rigorously control the quality of our products and services from conception to functionality and reliability testing. Nuestro compromiso con la calidad está presente en todo lo que diseñamos. Controlamos rigurosamente la calidad de nuestros productos y servicios desde la concepción hasta los ensayos de funcionalidad y fiabilidad.

## Q-LAB

## QUALITY COMMITMENT

Quality management system based on ISO9001.

Compliance with electrical safety regulations under EN60598 (lighting) & EN60335 (fans), as well as ERP energy-efficiency requirements.

Sistema de gestión de calidad basado en la ISO9001.

Cumplimiento legislativo de las normativas de seguridad bajo la EN60598 (iluminación) y EN60335 (ventiladores de techo), así como la normativa de eficiencia energética ERP.

**OUTDOOR**

**LIGHTING**

# **PORTABLE**

Its diffuser is covered with a removable, washable fabric sleeve that's also durable enough for outdoor use.

Muna dresses light in texture and color—a piece that unites materiality, presence, and emotion, thoughtfully designed to accompany every moment with serenity and intimacy. Muna casts a soft, enveloping glow that invites you to experience it. Light filters gently through the fabric, softly blurring edges and creating a serene, intimate atmosphere—perfect for spaces devoted to rest and well-being.

### Hybrid energy for maximum efficiency

Luma features a hybrid system that seamlessly integrates solar energy with mains electricity. During the day, it recharges via its solar panel; when the battery runs low, the electrical grid takes over—without any interruption. It can also be configured to operate in solar-only mode, completely cable-free, making it ideal for reducing energy consumption and simplifying installation.

HYBRID  
SOLAR+CABLE

LUMA Faro Lab

**Smart motion sensor**

Luma's motion sensor offers three modes: permanent on, total off, or 20% light that ramps up to 100% when motion is detected. An intelligent system that enhances comfort, reduces consumption, and extends battery life.

**A sustainable savings option**  
Luma optimizes every resource: solar energy to reduce consumption, advanced optics to maximize performance, and a wireless operation that simplifies installation. Technology, design, and sustainability—all in service of efficiency.

**Every detail matters**  
The top features a subtle tilt that prevents water from pooling on the solar panel, ensuring better performance and a longer lifespan. This thoughtful detail also optimizes the solar capture angle, boosting charging efficiency and supporting more sustainable operation.

Visor

24V Power Supply

With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation.

24V Power Supply

With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation.

24V Power Supply

With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation.

**Decorative design made for the outdoors**

Narita distills the essence of Nara into a more compact format. Its shade, defined by an elegant linear pattern, filters the light to cast playful shadows—transforming terraces and gardens into inviting spaces full of character. Crafted from stainless steel for enhanced durability outdoors.

**Light that sets the mood**

The metal shade casts a directional beam, ideal for lighting outdoor tables or bar areas. Inside, an opal diffuser conceals the light source, softening the glow to create warm, comfortable lighting with no glare.

With pure design and minimal structures, this family offers both direct and indirect lighting in its various versions, transforming every corner of the outdoor spaces. This lighting system offers great flexibility for project design thanks to its diverse categories: from stakes to beacons, pendant lights, or wall sconces, all with a distinctive and refined aesthetic. The indirect lighting of some versions provides high visual comfort and prevents glare, while eliminating light pollution and highlighting the surrounding vegetation.

**A sustainable savings option**

Luma optimizes every resource: solar energy to reduce consumption, advanced optics to maximize performance, and a wireless operation that simplifies installation. Technology, design, and sustainability—all in service of efficiency.

**Smart motion sensor**

Luma's motion sensor offers three modes: permanent on, total off, or 20% light that ramps up to 100% when motion is detected. An intelligent system that enhances comfort, reduces consumption, and extends battery life.
